This CD is designed to enhance the body grounding and the quality of your meditation. Please use and hear this CD with caution, this is a kind of medication, not a regular music. Noises, strange vibrations, special tuning and surrounding basses are made on purpose. To encounter the best experience, meditate on the Kalachakra Mandala, and the OM Mantra. A special technology BMR®, licensed by Resonant Worlds Institute, is used all over the CD. All performances, voices, Tibetan bowls, harmonic chants and overdubs are played and recorded by Vincent Baettig on Digidesign® digital audio workstation.

Mixing and mastering made at Resonant Worlds Institute, Switzerland, March 2006.

Thanks to all my masters for the harmonic teaching.  
Tantric music scales inspired from the tuning of the planets :  
Earth, Saturn, Venus, Mercury, Jupiter and Mars
